

SUMMARY

I am a qualified Aircraft Mechanical Engineer/Production personnel, with 6 years in the aircraft industry and over 2 years in the production environment has provided me with the knowledge and experience in reading manuals/drawings and familiarizing myself with troubleshooting, mechanical trade experience, communication skills, and team skills. Working with Qantas has given me the experience to attain hands-on skills on fitting and turning of various mechanical components, preventative maintenance on components/inspections as well as recording all of the maintenance carried out on aircrafts.

I am driven and passionate in the work which I apply myself to, I pride myself on my communication with my team, ability to develop relationships, ability to identify and execute pathways to success in both business outcomes and personal development. I am confident in working autonomously, and I enjoy working within a collaborative team, to ensure the business is streamlined and as efficient as possible. I am business minded, and treat my work as my own personal business, making decisions that best align with the company as well as my work goals and tasks.

FUNCTIONAL EXPERTISE

- Mechanical Mindset
- Written and Verbal Communication
- Motivated and Resilient
- Safety Conscientious
- Water Jet Machine Operator
- Attention to Detail

FUNCTIONAL EXPERTISE DEMONSTRATED

ARNOTTS

May 2021 – Current

Founded in 1865 Arnotts is Australia's largest producer of biscuits and the second largest supplier of snack foods.

Machine Operator (Processing Line 4 Day Shift) Virginia Plant

Disassemble/ Reassemble, cleaning, setting and operating machinery.

- **Monitor & Maintain:** Ensuring biscuits are processed to the correct weight and dimensions.
- **Fast Paced Environment:** Being able to efficiently do changeovers and reduce down time.
- **Minimise Wastage:** Working as accurately as possible to minimise wastage of biscuits.
- **Team Work:** Working as a team to ensure biscuits and machines are running smoothly.

VISY INDUSTRIES

April 2016 – February 2021

A privately owned packaging and recycling company with more than 9500 employees, with total sales exceeding more than \$5 billion.

Factory Hand (Water Jet Operator)

Set up and operate machine tools to manufacture precision metal parts, instruments, and tools.

- **Water Jet Machine Operator:** Designing custom die rubber components on CAD software and operating the water jet machine to meet customer die needs around Australia.
- **Attention to detail:** Demonstrated attention to detail to various components on the die.
- **Motivated and Resilient:** Showed resilience and motivation in a fast paced environment with time constraints and also reaching/exceeding performance KPIs in the task at hand being the key motivator.
- **Achievements:** Consistently ranked 1st in rubber assembly and time for jobs completed.

QANTAS ENGINEERING

January 2010 – February 2016

An Australian flag carrier of Australia and its largest airline by fleet size, international flights and international destinations. Founded in November 1920.

Aircraft Maintenance Engineer

Assembling, Inspecting, Testing various aircraft mechanical components.

- **Fitting and turning trade experience:** Removal and installation of several various components.
- **Problem solving and fault finding:** Experience in problem solving and finding where the problem exists and to be able to solve the problem.
- **Understanding of mechanical drawings and P&IDs:** Reading drawings and P&IDs as a way to troubleshoot, and repair various mechanical components.
- **Mechanical Mindset:** Taking components apart and putting them back together accurately. Able to visualize how components operate, assemble together and problem solve by diagnosing a possible cause of the issue after this visualization.
- **Safety Conscientious:** Trained under this field it was mandatory that Occupational Health and safety practices was our first priority working around aircrafts, being aware of hazards and keeping alert to any potential dangers was very critical.
- **Written and Verbal Communication:** Documenting/Logging and recording information on work completed on the aircraft by describing specific procedures followed in detail and verbalising with co workers/licenced mechanics accurately and concisely.

WOOLWORTHS

February 2007 – January 2010

Woolworths is an Australian chain of supermarkets and grocery stores owned by Woolworth Group that was founded in 1924.

Front End

Responsible for assisting patrons at the customer service desk within a grocery store. Initiates returns, resolves customer issues or escalates complaints to management as appropriate.

- **Written and Verbal Communication:** Resolving customer issues and escalating complaints if necessary.
- **Customer Service:** Greeting customers, Product recommendations, Resolving complaints.
- **Attention to Detail:** Being very organized and visual merchandising as well as window displays.

EDUCATION

Currently: Studying to attain an Associate Degree in Engineering.

Highest Degree Earned. Aero skills Certificate IV at [Kangan Institute](#)

Second-Highest Degree Earned. Certificate II in electro-technology.

Secondary schooling – Gladstone Park Secondary College (graduated 2009)

OTHER RELEVANT INFORMATION

Licenses Acquired: High Risk Workers Licence, Type C Licence

Computer skills: Adobe Acrobat(Proficient), Microsoft Office Word (Proficient), Excel (Basic), Access (Basic), Java & C# (Basic), autoCAD(Advanced)

Additional Languages: Turkish (Fluent)
